

Industrial Cybersecurity Centres Integrated Internationally

Sopra Steria has established several high level cybersecurity Centres

In Asia and around the world (Singapore, France, United Kingdom), capable of protecting the most complex and international organisations. They can also outsource all or part of their security functions in an industrial and integrated model.

In France, the Cybersecurity in Toulouse, gathers more than 150 experts and brings together the most advanced technology to prevent, detect and respond to attacks in an optimal way, exchanging and working closely with the Singapore and UK CyberSecurity Centre.
