

# Future-proof Your Planning Process

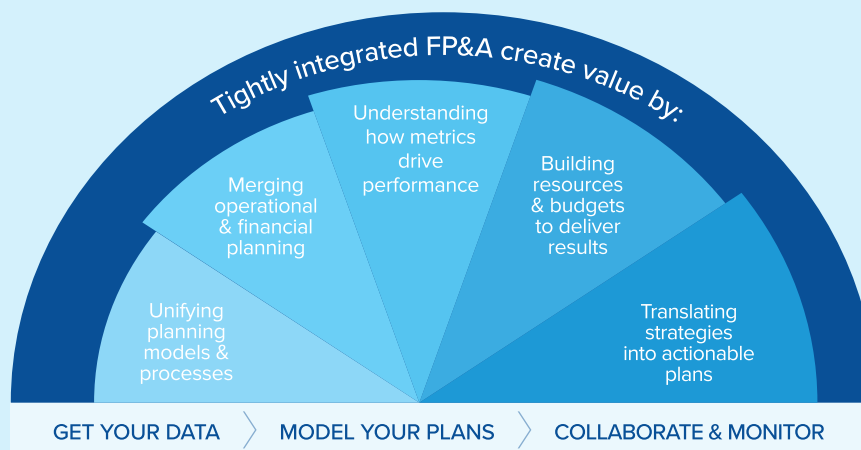

## Why Refresh Enterprise Performance Management (EPM) platform

## Finding the Right Technology

When changing your EPM solutions, focus on value creation. A tech refresh of your EPM is the right time to assess what now best fits your organization.

Jedox helps augment changing IT environments with flexibility. It unifies operations to empower business users to work faster and smarter.

## Integrated Business Planning made easy with Jedox

- BUSINESS CONTINUITY**

## The Path to Refresh Technology

### A Direct Migration

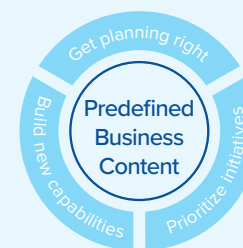

- Keep current models
  - For when time is limited
  - Largely a technical process
- 

### B Staged & Incremental

- Create new models
  - Take more elapsed time
  - Flexibility in migrating to new environment
- 

## Work with predefined business content

Jedox Models Marketplace provides pre-built models to accelerate implementation of your new business environment with industry-leading practices and processes.
